This April we celebrate our 50th birthday! We also honour our founder, Dr Annique Theron, who discovered the anti-allergic benefits of Rooibos in 1968. Rooibos is what this business was established on and it will continue to be part of our success formula to creating life-changing opportunities every day. Annique was the first company in the world to include Rooibos in its products and in doing so we have highlighted the amazing properties that Rooibos holds.

This includes the fantastic benefits when added to skin care.

- Packed with antioxidants, it helps reduce wrinkles and boosts the production of healthy skin cells
- The high levels of flavonoids help to prevent skin disorders like eczema and acne
- It has anti-bacterial and hypoallergenic properties
- It helps keep skin young and moisturised inside and out
